PROFESSIONAL SUMMARY

Fullstack Developer and fresh BSIT graduate with hands-on experience designing, building, and delivering commissioned web systems end to end. Proficient in Laravel, PHP, Vue.js, and MySQL. Proven ability to propose, scope, and ship production-ready platforms, including systems integrated across multiple teams via RESTful APIs.

TECHNICAL SKILLS

Languages: PHP, JavaScript, HTML5, CSS3

Frameworks: Laravel 12, Vue.js, Tailwind CSS, Laravel Blade, Vite

Databases: MySQL

Tools & Others: Git, GitHub, Composer, NPM, DomPDF, Maatwebsite Excel, Intervention Image, Pest

Auth & Security: Laravel Breeze, Sanctum, custom RBAC, API key validation, 2FA

Integrations: Google Gemini AI, RESTful API design and consumption

Currently Learning: Docker, Linux, Redis, PostgreSQL, Vue.js SPA

EXPERIENCE

Fullstack Developer (Freelance)

Facility and Event Reservation Management System (FERMS) 2025

- Built a comprehensive facility and event management system to streamline venue booking workflows for 24+ academic departments, reducing booking processing time and improving resource allocation transparency.
- Engineered real-time filtering and search across ongoing, completed, and cancelled bookings with automated status tracking, document management, and post-event compliance monitoring.
- Designed multi-step booking forms, committee assignment management, and administrative approval workflows; integrated with 2 external systems via RESTful API.

Fullstack Developer (Freelance)

Training and Development Management System (Core3HireUps) 2026

- Shipped a full-stack LMS on Laravel 12 and PHP 8.2 with Blade, Vite, Tailwind CSS, Alpine.js, and Axios; implemented auth via Laravel Breeze and Sanctum with custom RBAC, API key validation, and 2FA.
- Owned core product domains: skill catalogs, gap analysis, MCQ assessments, course lifecycle, training assignments, certificates (DomPDF generation and approval workflow), employee profiles, and in-app and email notifications with queue workers.
- Integrated Google Gemini AI for course recommendations, Maatwebsite Excel and DomPDF for reporting, Intervention Image for file uploads, and Pest for automated testing; connected to 3 external systems via RESTful API.

Lead Programmer – BSIT Capstone Cluster

Bestlink College of the Philippines | 2025 – 2026

- Served as lead programmer for a cluster of 10 capstone groups (50 students), providing technical guidance on system architecture, debugging, and development throughout the academic year.
- Reviewed codebases, advised on database design, API structure, and Laravel best practices across multiple teams working on diverse web systems.

IT Support Intern

VXI Global Holdings B.V. | May – July 2025

- Completed 250 hours of on-the-job training under the Information Technology Department.
- Configured end-user hardware, including IGEL terminals, Thin Clients, Dell OptiPlex desktops, and Avaya OneX phones.
- Added client machines to corporate domains and ensuring proper group policy application.
- Capable of using Jira to create, assign, and monitor project tickets.
- Familiar with installing operating systems such as Windows and basic Linux distributions.
- Assembled and disassembled computers for component replacement or repair.

EDUCATION

Bachelor of Science in Information Technology

Bestlink College of the Philippines | 2026

CERTIFICATIONS

Certificate of Completion – IT Desktop Support Intern

VXI Global Holdings B.V. | July 2025
